## LI: I know about St George and the Dragon.

George was a soldier who lived a long time ago. He sailed across the ocean to a place called Libya.	When he got there a man told him that his village was being eaten by a dragon. Each day they had to feed a woman to the dragon, and now only the king's daughter was left.
George was a brave soldier. He said that he would kill the dragon and save the princess and the village.	He threw his spear at the dragon, but it hit his tough scales and broke in two.
The dragon was furious and knocked George onto the ground!	George hid behind a tree. The dragon breathed, but George's shield protected him.
George leapt from behind the tree. George stuck his sword between his ribs. The dragon was dead!	The village was saved! George married the princess and they lived happily ever after.

## Challenge

Can you correct these problems?

$$20 - 8 = 28$$

$$14 - 10 = 14$$

$$19 - 12 = 16$$

$$21 - 16 = 10$$

$$18 - 13 = 7$$
